Quality Rack Power Solutions

## Only with Server Technology Will You:

**Stay Powered**      **Be Supported**      **Get Ahead**

### Stay Powered
Server Technology® only focuses on power. Top performing data centers around the world rely on Server Technology's rack power distribution units to maintain uptime, ensure efficiency and facilitate capacity planning. With the best testing in the market and longest mean time to failure (MTTF), Server Technology provides uncompromising quality, reliability and value for the data center. Our customers state that our quality is the number one reason why they choose Server Technology Rack PDUs.

### Be Supported
Year after year our customers rate our support to be a key differentiator between us and our competitors. At Server Technology, comprehensive product support starts before you buy and extends throughout your relationship with Server Technology. Server Technology power strategy experts want you to be more than satisfied with your power solution.

### Get Ahead
Server Technology power strategy experts have worked with top performing data centers for over 30 years. This ongoing exercise of designing new solutions has not only helped us secure a loyal customer base, it has also resulted in more PDU design innovations then any of our competitors.

### Our Cutting Edge Rack Power Solutions Include:
> **HDOT**®: Award Winning High-Density Outlet Technology Power Solution.
> **PRO2**®: PDU Uptime Solution. The Next Evolution in PDU Design.
> **AltPhase:** Alternating Phase Outlets Make Load Balancing Easy.
> **Sentry Power Manager**: Award Winning Data Center Power Management Solution.

# Server Technology Power Solutions

## 2,000+ SKUs to Meet Any Cabinet PDU Demand

| | | |
|---|---|---|
| > Basic PDUs | > Smart PDUs | > POPS® PDUs |
| > Metered PDUs | > Switched PDUs | > -48VDC PDUs |

**HDOT®**

## Your Density Solution: High-Density Outlet Technology

| | |
|---|---|
| > Most Outlets per Form Factor | > Higher, 65˚C Certified Operating Temps |
| > The Right Outlets in the Right Place | > Alternating Phase |
| > Build Your Own at ServerTech.com/byopdu | > Metered, Smart, Switched, Switched POPS |

**PRO2®**

## Your Uptime Solution: The Next Evolution in PDU Design

| | |
|---|---|
| > Maintain High Availability to Your Data | > Improved Network Card Serviceability |
| > Stay Informed of Rising Loads | > Expanded Warning & Alarm Levels |
| > Flexible Shallow Hardware Platform | |

## Your Capacity Planning Solution: SPM | Sentry Power Manager

| | |
|---|---|
| > Get the Reports You Need | > Monitor & Plan Your Growth & Capacity |
| > Seamless Integration | > Most Affordable Power Management Solution |

## Your Power Redundancy Solution: FSTS | Fail-Safe Transfer Switch

> Fail-over Redundancy to Single or Dual Power Supply Servers & Network Devices
> Carry Loads on Both A & B Circuits During Normal Operation

**OUR CLIENTS INCLUDE:**

| | | | | | | |
