

# Retention Solutions

Prevent your devices' cables from accidentally unplugging. Even when inserted correctly into the power distribution unit (PDU), device power cables can become dislodged due to user error or vibration over time. Server Technology offers multiple solutions that data center managers can deploy to firmly secure power cables to the outlets on a PDU to provide peace of mind.

## EZip

This Server Technology product is equipped with High Retention outlets. Due to the significantly improved native holding force of the outlets, we are no longer including secondary retention devices with the product as we have in the past. In addition, we have developed a new secondary retention system, Easy Zip, replacing previous Server Technology Cable Retention Clips.

The Easy Zip system is sold in bundles. Orders may be placed through your Sales Representative.

Receptacle	Plug	Description	Part Number
C13	C14	(10) EZip for IEC 60320 C13 outlets	KIT-0013
		(24) EZip for IEC 60320 C13 outlets	KIT-0090
C19	C20	(10) EZip for IEC 60320 C19 outlets	KIT-0019
HDOT C13	C14	(10) EZip for IEC 60320 C13 HDOT outlets	KIT-HD13
HDOT C19	C20	(10) EZip for IEC 60320 C19 HDOT outlets	KIT-HD19
HDOT Cx	C14	(20) EZIP for HDOT Cx Outlets using C13 adapter (that was supplied with the PDU)	KIT-CX13

# Cord Sleeve

Prevent your devices' cables from accidentally unplugging. Even when inserted correctly into the cabinet power distribution unit, device power cables can become dislodged due to user error or vibration over time. This thin plastic sleeve provides a more snug fit of the plug when inserted into the outlet. Removable - fins on the side allows sleeve to be removed from the outlet. Universal - works with any straight C14 or C20 plug

Receptacle	Plug	Description	Part Number
C13	C14	(4) Nylon Cord Sleeve for C14 plugs	KIT-0070
C19	C20	(4) Nylon Cord Sleeve for C20 plugs	KIT-0071

# Cable Retention Clip

This formed wire retention clip attaches to the sides of the PDU and provides a reliable cable retention solution.

Clips available for C13 and C19 outlets. Designed to work with molded, straight plugs sold by Server Technology.

Receptacle	Plug	Description	Part Number
<b>1U Wide PDUs</b>			
C13	C14	(2) Formed wire clips for C14 plugs, 1U wide	KIT-0026
C13	C14	(8) Formed wire clips for C14 plugs, 1U wide	KIT-0030
C19	C20	(2) Formed wire clips for C20 plugs, 1U wide	KIT-0028
<b>2U Wide PDUs</b>			
C13	C14	(2) Formed wire clips for C14 plugs, 2U wide	KIT-0060
C13	C14	(8) Formed wire clips for C14 plugs, 2U wide	KIT-0036
C19	C20	(2) Formed wire clips for C20 plugs, 2U wide	KIT-0052

# Why Server Technology for High Density Data Centers

Server Technology is the foremost provider to the data center industry of high density, high power intelligent power distribution products. With the best initial quality and longest mean time to failure (MTTF), Server Technology products provide uncompromising reliability and value for the data center.

Server Technology holds many of the key patents for providing power in a zero-U PDU configuration compatible with today's racks and dense compute infrastructure requirements.

Our HDOT-based products have been recognized multiple times by DCS and others in the data center industry for being the global leader of innovative, intelligent power distribution products. Our PDUs offer solutions for data centers, telecommunications operations and branch offices. Over 60,000 customers around the world rely on Server Technology's power distribution units (PDUs) and power management and measurement solutions to Stay Powered, Be Supported, and Get Ahead.
